24 / 06 / 2012 (21:55 UTC+1) - **UPDATE: ”Zeta Ridiculi” 1/2 - Knockout!**

Here goes:

CASE 6 - “Fake Lothar Schwarz?”:

Do you guys remember Lothar Schwarz? Im sure many of you do....in fact, if you were following the PS-Ning for a while, **you couldn’t have missed him** as he was owning the most popular blogpost: “Please place your SOHO , STEREO and Magnetosphere images here!” and a lot of other popular discussions as can be seen if you google “Lothar Schwarz poleshift”.

So, where is Lothar now and what happened to his posts you may ask?

Well, as many of you surely suspected, Lothar Schwarz was a former Moderator too. It needs to be said, that Lothar was more of a “lone warrior” and not really attending to the Moderator-discussions on the Admin Ning (which are getting increasingly important, as to assure that all minds are “thinking the same”), so the Moderators were generally unhappy with his attitude and I am not intending to judge over this here, but instead only consider the relevant facts in this matter.

That said, Lothar did his homework on certain matters and therefore was considered the “Sattelite-image-expert”, or giving general tips about forming SurvivalGroups or other topics.

So what happened to Lothar and why is he not a Moderator anymore?

Well, since I know the “insider-informations” I can tell you that Lothars “turning-point” occured on the Most popular “Please place your SOHO , STEREO and Magnetosphere images here!”.

Someone was posting a STEREO image showing a planet wandering across and as usual people were wondering what it might have been (while not looking it up further for themselves).

Since Lothar did his homework in researching the Stereo-website,

<http://stereo.gsfc.nasa.gov/beacon/planets/> , he knew it was Venus and told so.

So, whats wrong with that, you may ask?

Well, a certain Moderator reminded him of the “fact” that the Zetas stated that everything on SOHO/Stereo images is supposed to be doctored because Earth is supposed to be stopped in its orbit and Venus and the “Dark Twin”are supposed to be “caught in the cup”, while the only “real” data on the Sattelite-images are the sun (and its rays) and the

famous “Winged Globe” appearance or so. (Wait, what? All planetary Movements, the stars, comets, spacejunk and all are supposed to be “doctored” per the Zetas, **BUT** the Winged globe and the sun is real? huh? seriously? YES, per the “Zetas” from Zeta “Ridiculi”:

<http://www.zetatalk.com/index/zeta576.htm>

“The solar flares are real, though during attempts to remove evidence of Planet X from SOHO images the programs show obvious edit lines. As we have explained, the programs are not sensitive to color gradations, like the human eye, and thus build in bloopers for the public to discover. Thus, in order to effect the appearance of normalcy, with an Earth moving in her orbit and Venus appearing opposite the Stereo satellites at times, the passage of Venus was likewise inserted into appropriate Stereo images.”

Why would Nancy state such a thing?

Well, as is obvious if you read the remaining ZT, Nancy DID NOT HAD ANOTHER CHOICE, because she claimed “Earth stopped in its orbit”, and Venus and the “Dark Twin” are supposed to be “caught in the cup”. (The Dark Twin is a planet that nobody can see, which was supposed to ride to the opposite of the earth (being always behind the sun) while now have made it mysteriously, somewhere behind the earth, somewhat tilting below earth’s orbit, in West or East or so, since its “Caught in the cup” (it seems Nancy isnt even sure bout that one - if you dont get this sarcasm, check Case 1 in the “Story”-chapter below)..

So, since Nancy obstinately holds to her claims (which turned to be self-destructive) , of course she must state (per the Zetas), that all the planets etc. on SOHO/STEREO-images must be doctored too.

Then of course these darn planets just dont want to appear to be “caught in a cup”, since Venus just recently traveled as predicted. (Dont know this one? Check Case 3 in the Story-chapter below...)

But HEY! Nancy still has her little “Joker”, the “Element of Doubt” and the mighty “Council of Worlds” which mysteriously “simulates” normalcy all the years (even up until today and probably in the future too ;) while the planets usally should be supposed to be “caught in the cup” per the “Zetas”.

<http://www.zetatalk.com/index/zeta576.htm>

So what has this to do with Lothar?

I have not asked Lothar about this one, but I guess this was the turning point for him, to realize, how absurd Nancy’s claims have gotten and accordingly he left the Ning on his own, removing all his content (I can understand that now, since the basis aka. “ZT” of the PS-Ning is rotten).

What about “Fake Lothar”?

Well, after a while Lothar Schwarz suddenly appeared on Cheryl’s Ning, while not supporting Nancy and “the one and only truth ZT” anymore:

<http://earthchanges.ning.com/profile/LotharSchwarz>

(Cheryl was a former PS-Ning Moderator too and created her Ning after “waking up from Nancy’s charade” by splitting up the two Nings.

Alex R. or Ken Harris, also both former longtime PS-Ning Moderators can be found on

C's Ning with similar experiences <http://earthchanges.ning.com>)

So the Moderators asked themselves what occurred to Lothar, since Nancy previously stated he was "highly STO" and all....so were demanding an answer, "ZT", from Nancy.

Since Nancy does not like distraction "of the one real truth", she simply declared Lothar to be another "Black Ops-fake" as she did before with Maria and many others (i.e. say they are a fake-identities "acting" as the real person), because she thinks over the internet its almost impossible to reveal someone's true identity. (Oops Nancy)

So she declared that Lothar's survival-group "has disbanded", Lothar not being active anymore and now supposedly spreading "disinfo" as a "fake-persona" on Cheryl's Ning to "distract the Moderators".

Well, of course the Moderators bought it and some were even worried what the Real Lothar might be doing!

So a famous "Moderator of the Moderators", actually one of Nancy's sadest "manchurian candidates" (which even Nancy cannot stop anymore, because she declared that Moderator to be "higher-evolved" than the Zetas), came to the brilliant idea to make an effort in contacting the "real" Lothar, in order to have the "fake persona" exposed, because the Moderator believe the real Lothar to be anything, but doubting ZT.

Why is this Relevant?

The idea to call Lothar came up pretty quick and Nancy did not expected that someone might be able to get to his number quickly, while Nancy likely expected nobody would care at all about him, since she thought many disliked him, accordingly wouldn't dig deeper into her claims!

(Oops again Nancy!)

So since I am a "countrymen" of Lothar aka. living in Germany, I was supposed to make an effort in contacting him, and started looking for contact details during a Skype session with the Moderators, **until I came across another "bummer" at that time.**

As some of you may know, Lothar Schwarz has his own website, so I went to look for it, to make a special Request (which I wont detail, otherwise Lothar will be flodded with calls) to get to his Phone-Number and noticed that **Lothar is not supporting Nancy's claims on his own website either!** See for yourself!: <http://www.schwarztech.at>

I had Lothar's Number in less then a couple of Minutes and was ready to call him... But I didn't at that time, because I had the feeling I would talk to Lothar himself (as occurred before when I went to dig into the "Fake-Maria-Lie", so Nancy would came up with some other BS to discard the person behind the telephone (like claiming they tapped his line and "implanted" a fake or whatever)..

So I told the Moderators I dont have a good feeling about calling him, because the result will not be what the Moderators would expect. (They would expect a confused, ZT-faithful Lothar, wondering what happened with his website, or why someone writes stuff on cheryl's ning in his name), so they all agreed in not to call him for the Moment.

AND, I WILL NEVER FORGET NANCY'S REACTION AT THAT DAY!

When Nancy first stated that Lothar was a "fake", she was only aware of his presence on Cheryl's Ning. THE FACT that EVEN Lothar's Website supports the claim that Lothar is no longer a believer in Nancy and the Z's anymore gave it a totally new dimension, and it was not known until I came across it during the skype-conference, where NANCY WAS

ATTENDING TOO!

I can remember well (and the Moderator's probably too), how "defensive" Nancy was at that day. Suddenly she left the Skype for some reason, and later was playing "dat-little-innocent-baby" for no apparent reason, while we agreed about not calling Lothar for the moment.

(Of course, because her heart surely pumped like a horse in that very moment, as her Fraud was going to get exposed by a simple call!)

Nancy was like, "oh, huh?" , "You decided not to call him?" , "Hmmm, I have no hunch about this one (when she usually throws in her hunches on the next best occasion), but given the hunches of Mods X,Y,Z, I agree not to call him")

LOL NANCY! That was a big eye-opener for me. I first didn't seemingly understand, why the heck you were so defensive about that one, since we just wanted to help Lothar!

Anyway, Nancy got a couple of more days to "live with the Fraud" (*"phew! The Mods did not call him yet!"*) and the Mods demanded another ZT from Nancy, as to why his website was taken over and what dimensions the supposed blackOps has achieved, as taking over a personal website and all, would be obvious to Lothar's friends such as all those who know him.

Some moderators were even thinking he might have been killed (because something similar would need to be the case to have Nancy's claims "realistic"), but per the Zetas on the Admin Discussion (Yup, I got dat backup!):

Nancy claimed,

SOZT

The real Lothar did not get killed, but feel ill and was not able to continue his Internet activities. Stroke and debility. Thus they were open for a takeover.

EOZT

"Awww.... poor Lothar... these Nasty Black-Ops took over his website and all, because he had a stroke and cannot continue his internet activities... : ' (" <- That's what Nancy wants the Moderators to believe..)

And as such she thought nobody would be able to prove otherwise, but she did NOT EXPECTED, that Lothar or the other former Moderators would VOLUNTEER TO EXPOSE HER CLAIMS!

HA NANCY! You messed with the wrong people!

After it became clear to me, what game Nancy is playing, it was likely that Lothar would support me in this manner, (since he is still active and even supports on his own website, that Nancy is a Fraud), so I thought how I could best expose Nancy's claims and contacted him with the Following E-Mail:

Hi Lothar,

as I wrote you before Nancy claimed that you are a Fake too and I would like to expose that lie as well, as this will help the Moderator's realize the truth because they all know that Nancy claimed this.

What do I need?

Well I can prove the claim that Nancy said you were a fake + background information, and you have posted Images of your equipment in the past, that still can be found via google.

(Im talking about the (currently removed) posting "I show you mine, You show me yours", if you remember).

So what I need would be another image (at best with a current timestamp written on paper or so :D) of that very wodden desk: <http://bit.ly/KP9YLF>

This would be enough to debunk Nancy's claim and we dont even need to reveal a personal image of you!

That said, I hope you can either send me a current image of that desk, <http://bit.ly/KP9YLF> or post in on Cheryl's Ning, or on your website somewhere...

Greets,
Co S

So, to sum up what I was asking from Lothar:

Lothar Schwarz previously had a posting on the PS-Ning, that was called "I show you mine and you show me yours", which was a place for people to provide images of their equipment and preparations.

As many of you surely remember, and as can still be found by searching Google images for

"I show you mine poleshift" , Lothar posted Images of his equipment:

(Image details say these were taken on 25. August 2010)

<http://bit.ly/KP9YLF>

<http://bit.ly/MtLqAF>

So I only needed to ask Lothar to make another current image of that very wooden desk (which would be EXTREMELY HARD TO FAKE since it has a lot of individuality, given all the unique scratches, tape, color drops etc) and did so.

Did supposed "fake Lothar" aka. Lothar Schwarz himself, managed to make a current image of his wooden desk?

HOLY CRAP, YES! EVEN WITH A CURRENT NEWSPAPER!

(Image details say these were taken on 24. July 2012)

Is that Lothar's Desk?
YOU DECIDE!

Explain dat one Nancy ;) (Oh yeah, you won't say ANYTHING, because you know, every little bit of your ZT-absurdum is going to be closely analysed!
It would have been way more credible by simply stating Lothar has developed doubts. But no, you had to stubbornly hold onto your claims once again. So you deserve to crash under the weigh of your own lies!)

More to come....the Obvious can become even more obvious if you wish. Its up to you, remaining Moderators. Want me to travel to Lothar? Talk to his neighbours? To other people that know the real Lothar? **Are you serious?**

Is it really so hard to see?

(btw: Thanks for the support Lothar!)

23 / 06 / 2012 (19:51 UTC+1) - **QUICK UPDATE: Hard Denial**

// last Edit 25 / 06 / 2012 (01:56 UTC+1): *Cleaned up some emotional responses from my part, as afterall im also just a human and getting increasingly frustrated by the "tunnel-vision" of the Moderators, while many people are still being mislead with Nancy's verison of Reality. In my opinion anyone who is not able to view ZT critically, should resign as a Moderator, as this is not a kids-playground but REAL PEOPLE are involved.*

Denial is obviously remaining strong among the remaining Moderators as nobody of them was yet able to debunk the analysis below, despite seeing the contradictions that ZT presented.

As usual, Nancy posted previous ZTs about all kinds of topics, though as expected, the analysis below is being ignored alltogether. (Of course, because Nancy avoids critique based on Facts)

BTW: @ the Moderators: If you are SOOO SURE that Nancy is right? **Please DEBUNK MY EXPOSAL! TRY IT!**

And to "PEN #1" aka. the self proclaimed "Moderator of the Moderators", time to get real or be prepared for a HARD LANDING SOON! (Yes Im talking about that GLP posting)

I will not tolerate misleading people just because Most of the Mods dont have the COURAGE to stand up and question Nancy's claims!

Even Gerard seems to have given his rights to "the Moderator of the Moderators and "untouchable Nancy", taking the path of the least resistance.

@G, You're losing it and its time to wake up and take the Ning back into your hands. If Nancy does personal counceling for others, why is it that she will not confirm a single thought that you have in your mind right now? (Oh right, because she cant!)

Why is it that Nancy avoided further ZT on "fake maria"? (OH RIGHT, because she knew her claims would be WAY TOO ABSURD to be able to hold them in the future, as she knows Im in contact with Maria!)

Why is it that Nancy claimed Lothar Schwarz (and the other "doubting Mods") to be "black Ops-Fakes", when they are obviously volunteering to do WHATEVER IS NECESSARY to provide their identities? (

<http://earthchanges.ning.com/profiles/blogs/another-one-bites-the-dust>)

Why is it that Nancy claimed "CIA BlackOps" hacked the Ning deleting members, when it

was Ken Harris in an attempt to stop misleading people?

BE PREPARED FOR A HARD LANDING.

Stuff is decided over your heads and you've lost control to seemingly "old souls" which actually prove that they're nothing more than you and me. (A truly old soul would not differentiate between "densities" AS ANYONE CAN HAVE A LEGIT CONCERN! Afterall, FACTS REMAIN FACTS!)

You will be exposed, ALL OF YOU, WHO STAND IN THE WAY OF THE TRUTH, and may it be if I have to travel to Lothar, talking to his neighbours, the local police or WHATEVER IS NECESSARY TO STOP THIS FRAUD AND HAVE THE MODERATORS WAKING UP!

If you dont have the courage to do what is necessary, step back and resign!

Enough harm is being done to innocent people! Time for a different tone, also from my part.

21 / 06 / 2012 (23:27 UTC+1) - **UPDATE: Appeal to the PS-Ning Moderators**

22. June 2012 aka. "Purging Day" is approaching.

<http://poleshift.ning.com/profiles/blogs/important-message-to-all-members-of-this-ning>

To the Moderator's @ PS-Ning:

Please reconsider purging those members who havent filled in their profile-Answers or those with "unsatisfying profile-answers" as this will only cause unnecessary problems. As you may be aware, a suspension sets a cookie that prevents people from accessing the site altogether. The PS-Ning E-Mail inbox proves that most people are not familiar with deleting cookies, beside deleting specific cookies to prevent all other logins and temporary data to be deleted too (which can turn out to be a great loss)!

I will never forget how many E-Mails we recieved of people wondering about their suspensions or how they delete their cookies. (Someone even was cookie-blocked on his mobile phone which can become really tricky to get rid off...)

Anyway, many people sign up on the Ning for the sake of identifying themselves with an interest... or because they may want to share thoughts in the future, which is getting increasingly suppressed by the oppressive rules and and the "professional" appearance the Ning achieved over the years. (Although its not truly professional since the most essential element, critique, is not allowed.)

All those accounts you consider to "purge" are **NOT HARMFUL!**

By suspending all these people **you are only creating problems** in the flow of information!

Since you observe the latest-activity anyway, you will notice when something is against the rules and can jump in if necessary!

(BTW: In my opinion the rules would need to be reconsidered too... If critique is not allowed you risk finding yourself in a dead-end one day, because you missed checking matters with "reality". And critique usually has the background of someone having a different perception of matters, so why wouldn't it be valuable to see what lies behind that perception?)

Is GLP really such a Mess? In my opinion GLP just represents the human nature of all its aspects..Chaos seems to rule at the first glance but it seems they managed to organize

themselves and as such they achieved an almost free flow of information.

You cannot prevent disagreements between 6 billion humans on earth as the human psyche is way too deep to have all humans thinking the same, but there are matters that everyone would agree about, **matters that are inherent to anyone**, such as Black is Black and White is White, a stone in your hand is “real” (physically), or the many emotions all humans share, love, compassion, sorrow and pain, fun and dissapointment, logic and illogic, curiosity or boredom....get my drift? The Ning can fare well (even better in my opinion) without oppressive rules :)
